

## Says

What have we heard them say? What can we imagine them saying?

government policies:examining how indian government policies and regulations have influenced apple's iPhone operation's in the country

it is really helpful to business things and for researchers .it will be good decision maker

market penetration,app ecosystem,environment impact future projectioprojection

yusuf khan **EXPLORATION OF** 

APPLE'S IPHONE

IN INDIA

global insights : it can provide valuable insights for various stake holders,from business to policymakers and

cosumers

competitive analysis: data -driven insights can aid in comparing apple's impact to that other phone

Does

informed decision

behaviour, market

consumer

making,understanding

explosion opportunties

What behavior have we observed? What can we imagine them doing?

**Thinks** 

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

but the cost of the iPhone is more expensive and it is become more prestige one to human

the cost of iPhone is worthed actually becomes it performance,camera technology,qualityand reliability,security and orivacy it all are worthed at it price

impact of iPhone in india is may help to increase the security level to our nation

it has lots of advantages but also have some kind of disadvantages like more expensive,repair costs ...

apple iPhone is very useful and more secure compared to the other devices and other phones

also, it become very popular band compared to others phones

**Feels** 

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
